History is the record of human experience. Its study is a first step in learning about ourselves and our society—about economics and politics, psychology and sociology, mathematics and science, the arts and the humanities.

For students whose undergraduate major is history, career opportunities are numerous and varied. Medical, law and other professional schools favor applicants with history majors because of their broad background and research skills. Moreover, while teaching has long been a popular goal for history majors, positions in government (local, state and national), in publishing and advertising, in communications and in business also await those students whose human perspective and intellectual discipline have been developed in history classes. Beyond the purely practical consideration of a profession, the study of history is exciting in its own right.

MAJOR

The history major consists of 30 credits as follows:

- A maximum of 9 credits may be taken in basic 100-level courses.
- At least 18 credits are required above the 100 level; 6 credits must be in 200-level courses and 12 credits must be in 300-level courses.
- Majors must take History 300 (Historical Research) twice in conjunction with 300-level courses or, in rare instances and with department permission, in conjunction with a 200-level course.

Within the courses taken to fulfill the major requirement, students must take a minimum of 6 credits in each of the following areas:

- United States history
- European history
- World/non-Western history/Latin American history

History majors are strongly encouraged to take at least 3 credits in an advanced seminar or problems course (HIST 382, 383, 384, 385, 400, 483, 484 or 485).

Students may not use courses graded on the basis of Credit/No Credit toward fulfillment of the major.

Minor

The minor that leads to a BA degree consists of 12 credits in any one department or program, of which 6 credits must be above the 100 level. Students preparing to become elementary school teachers may take the 30-credit in childhood education in lieu of a minor.

Minor for Non-Majors

The choice of particular courses in the history minor must be approved by the student's major department adviser.
